

Jag följer färgmönster

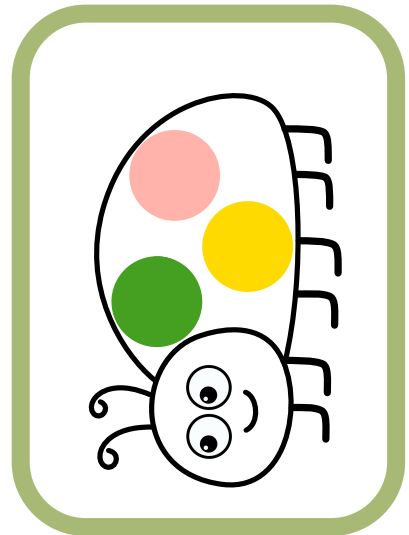

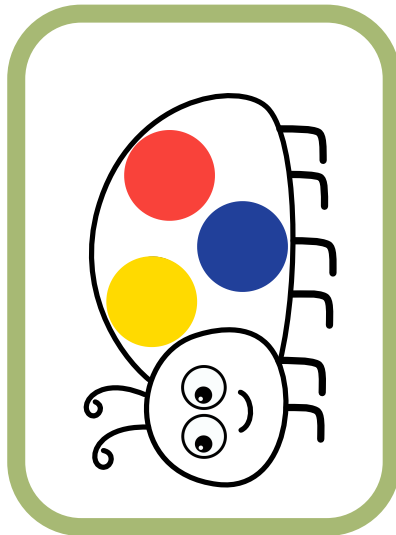

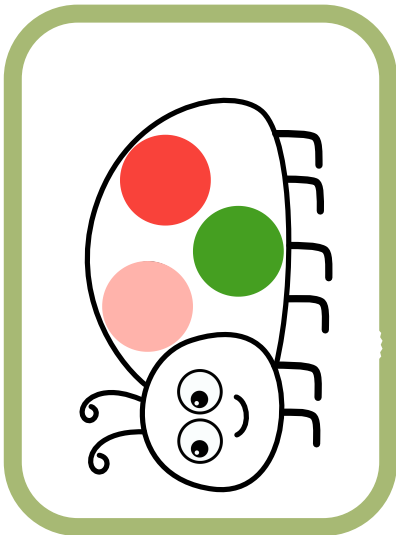

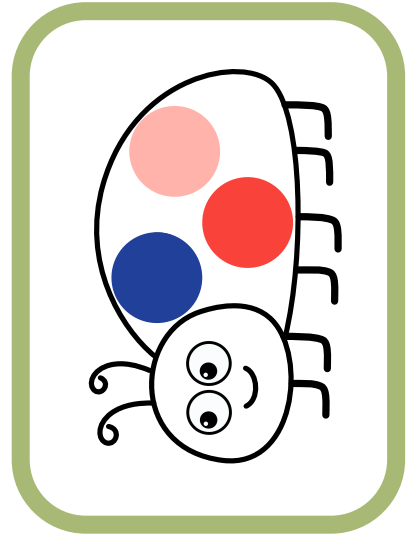

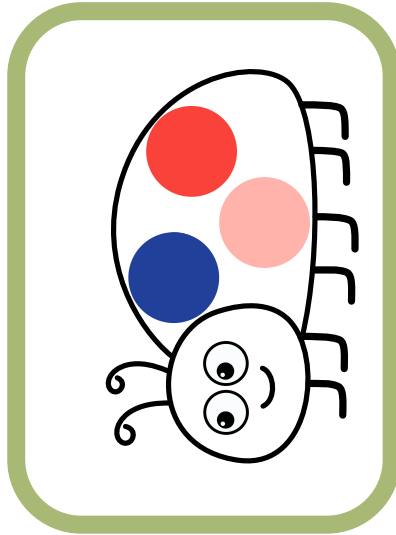

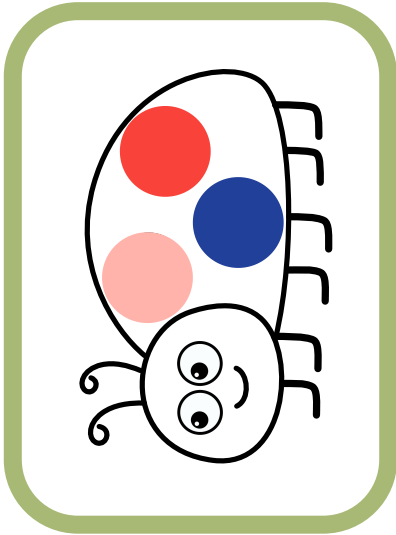

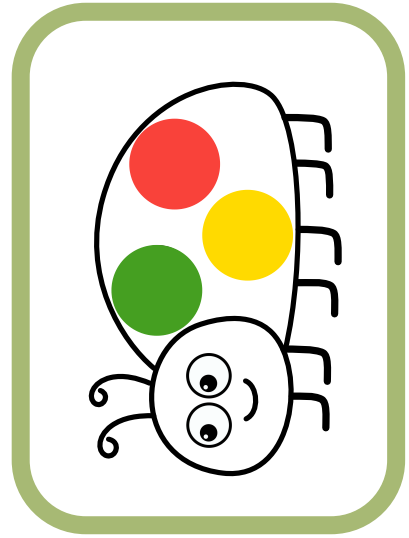

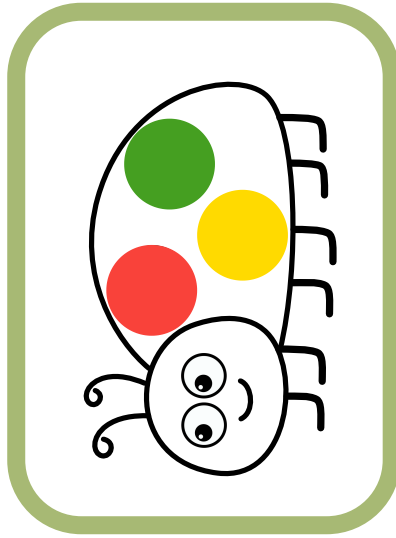

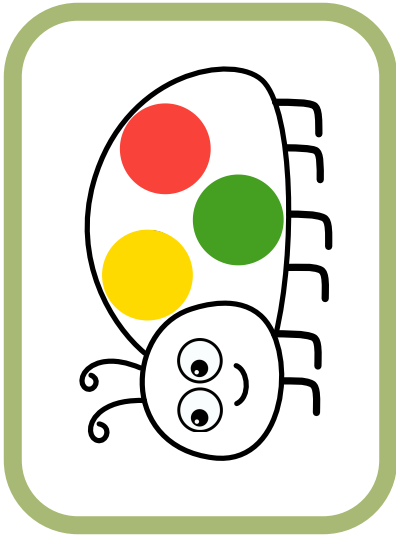

Lägg pompom-bollar på insekten enligt
färgerna på kortet

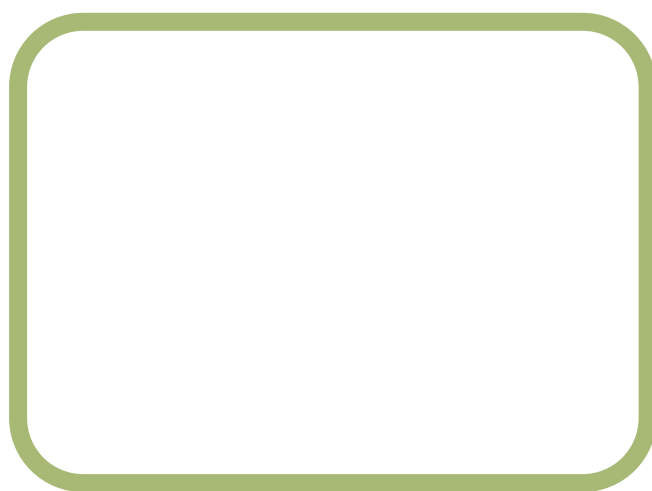

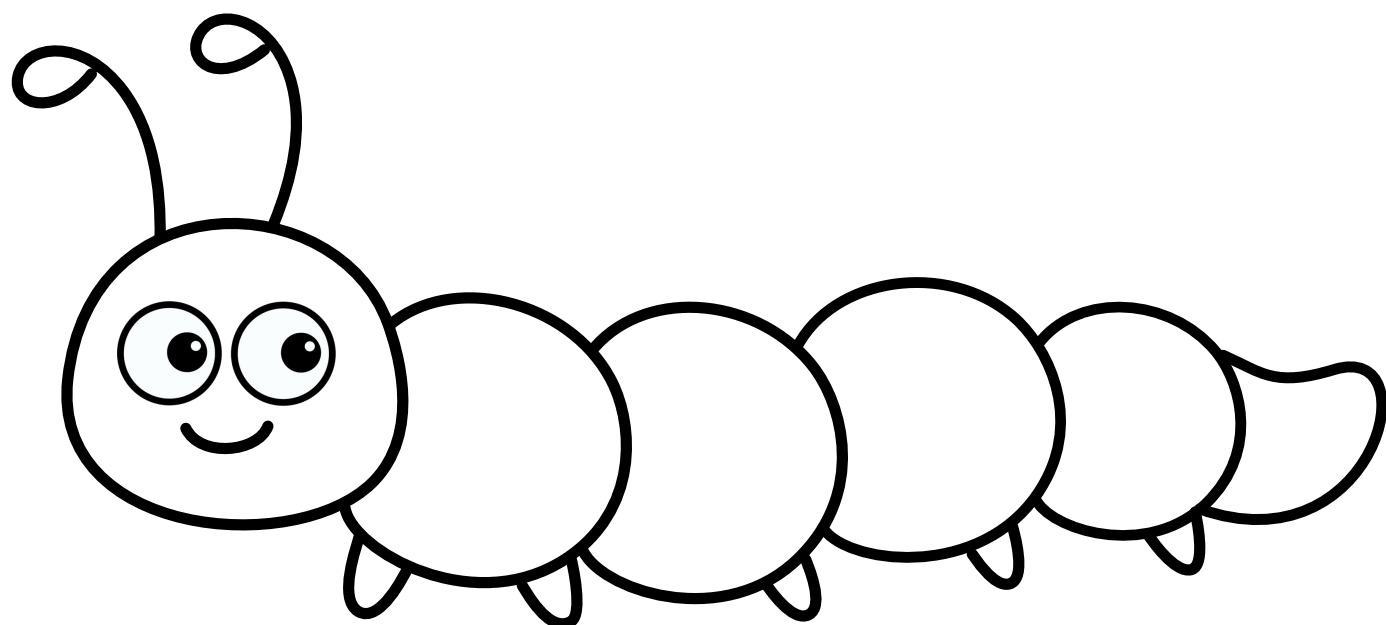

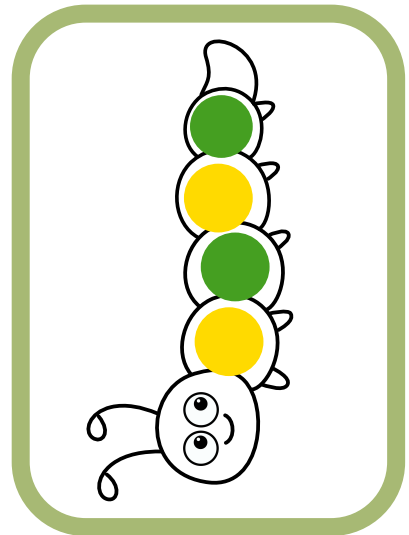

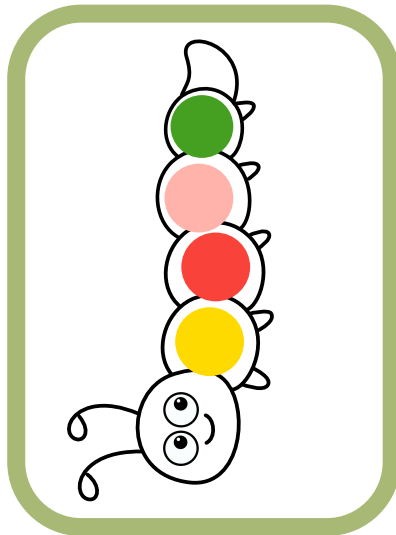

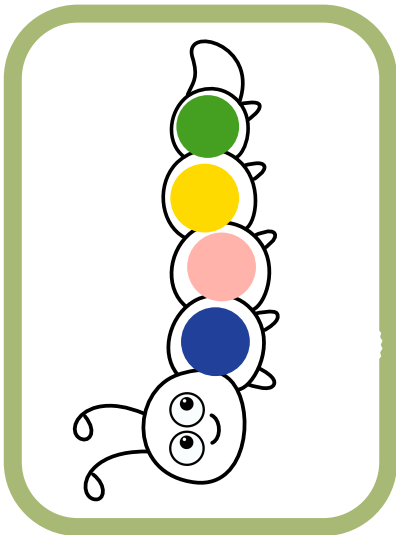

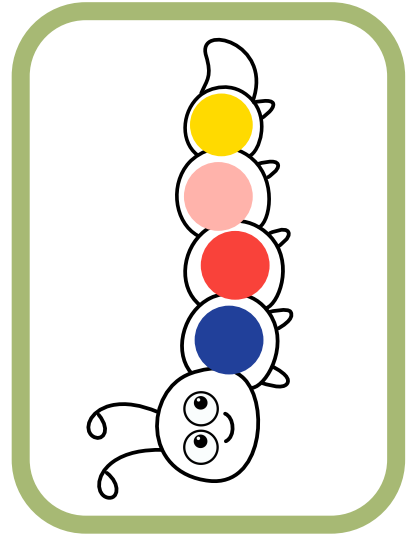

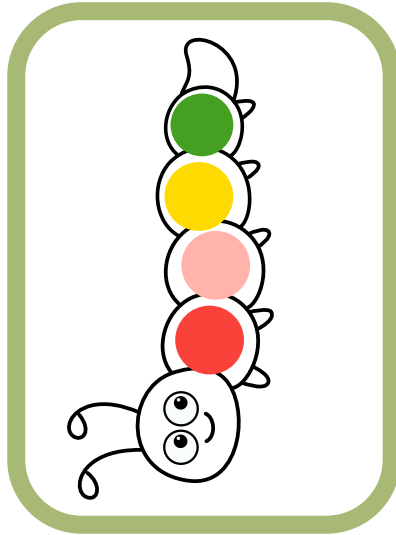

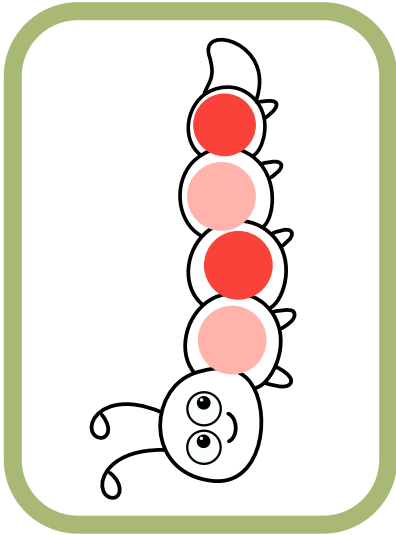

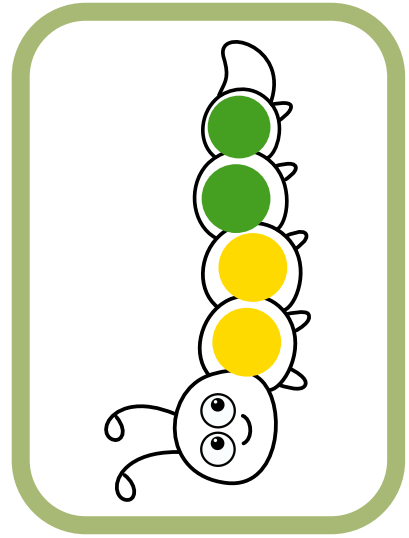

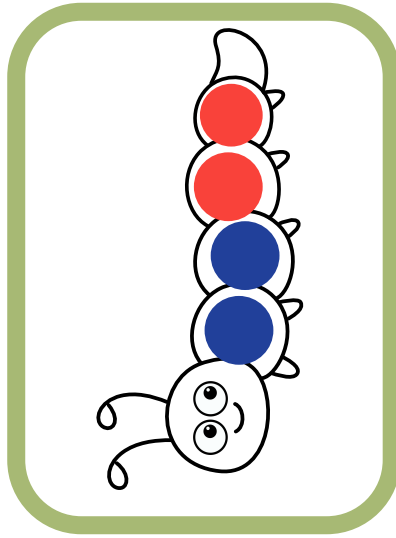

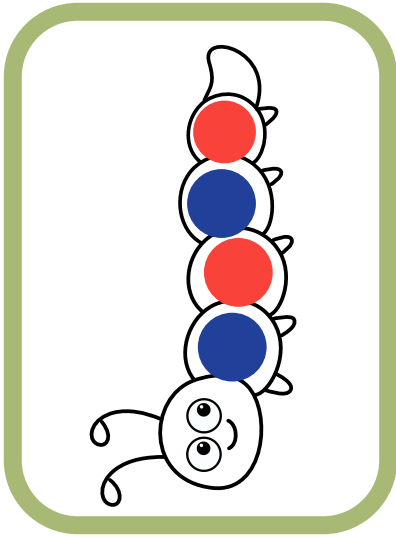

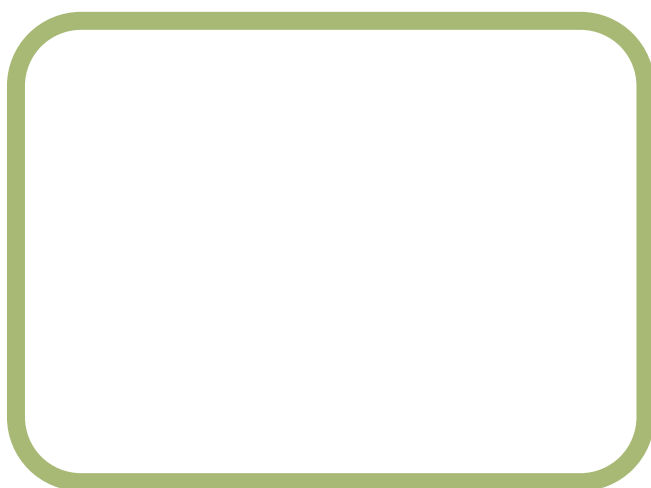

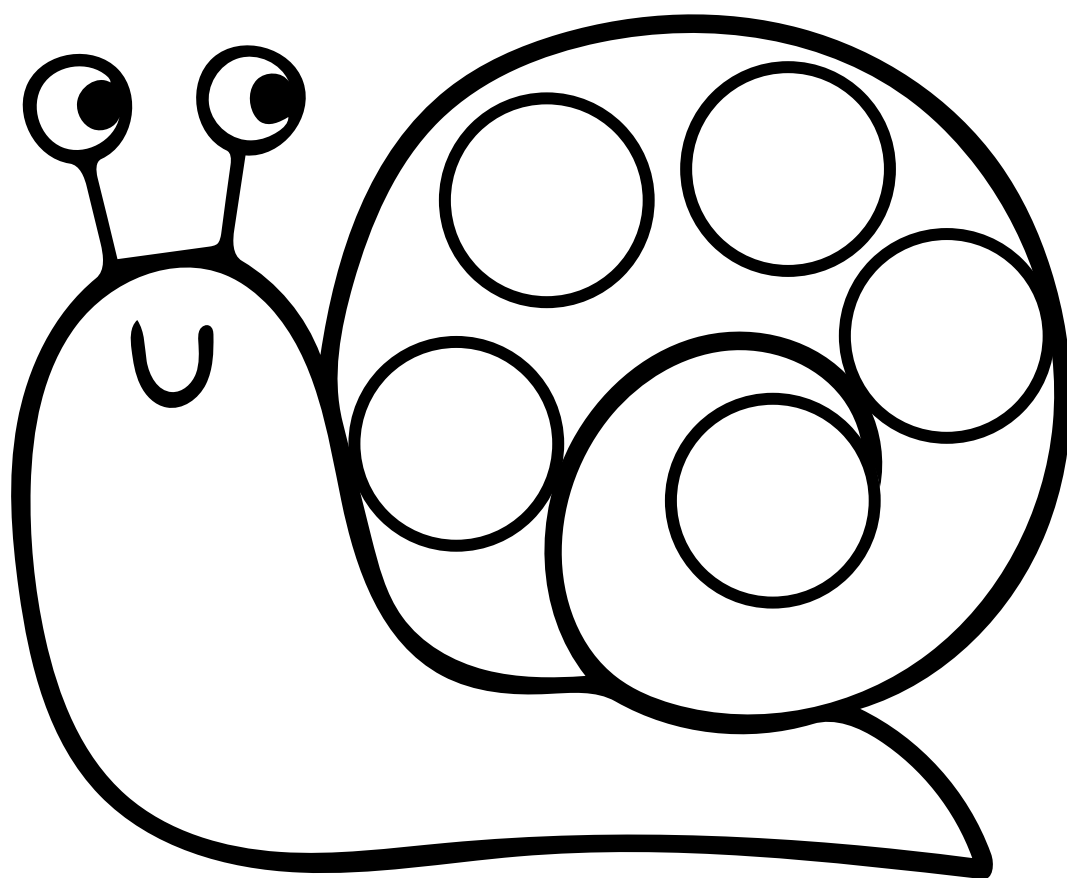

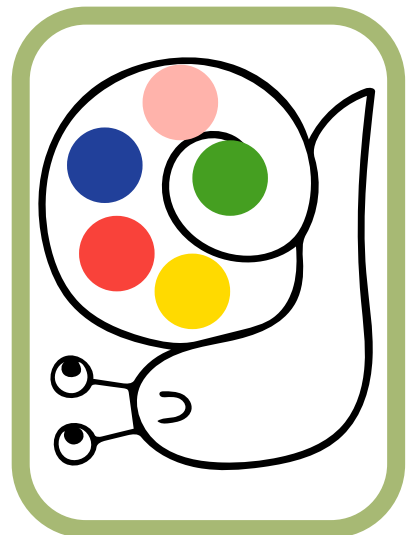

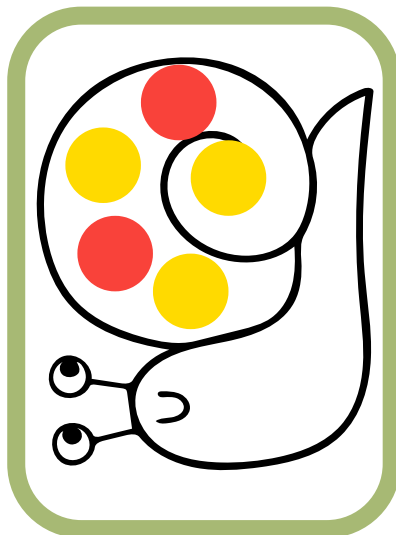

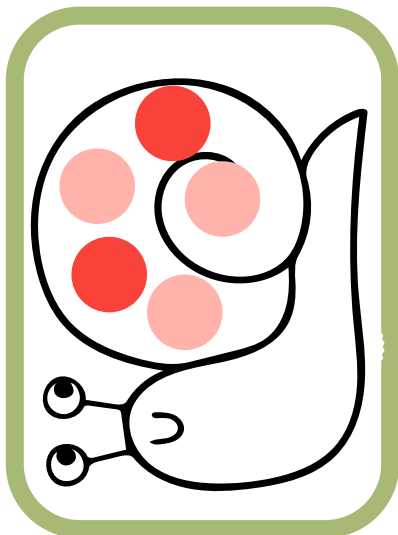

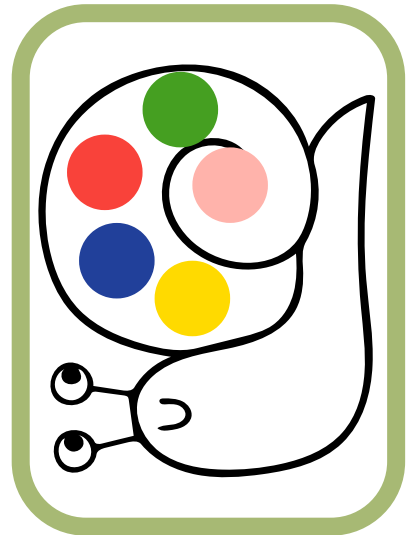

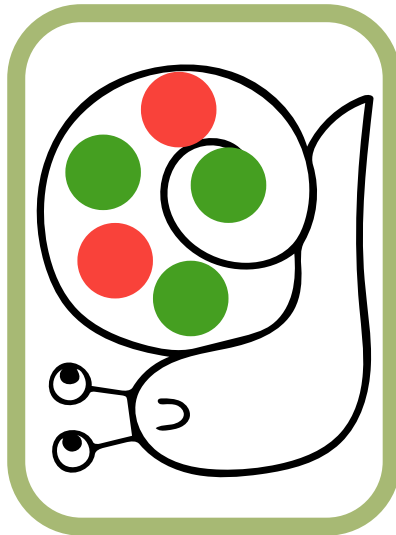

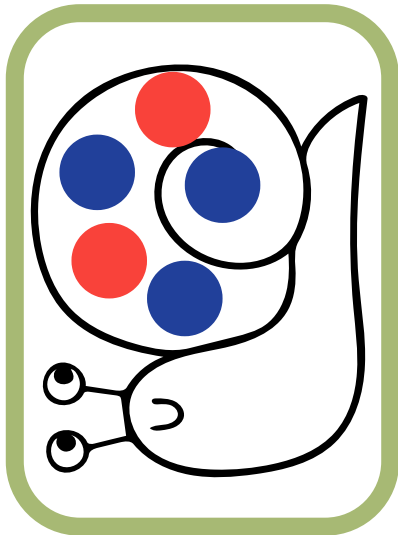

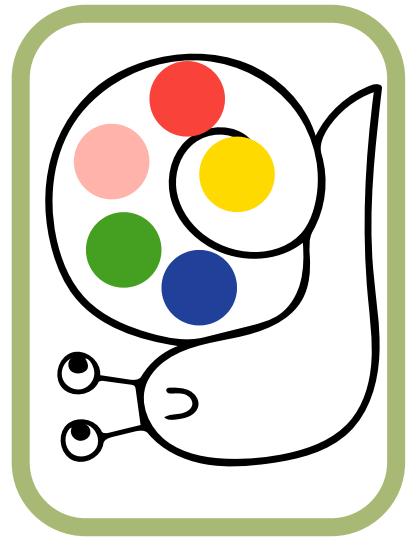

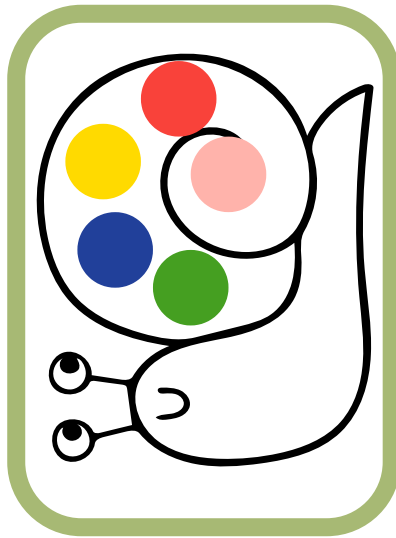

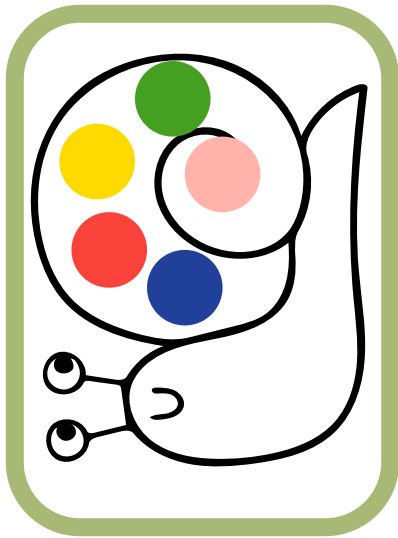

Jag följer färgmönster

Till läraren

Syfte

Eleven tränar på att uppfatta ett färgmönster och lägga lika.
Eleven tränar handmotorik inför exempelvis sax- och penngrepp.

Material

- pompoms i färgerna blå, röd, gul, grön och rosa
- laminerade bottenar med insekter
- laminerade insektskort med olika färgmönster
- eventuellt mjölkburskorkar, tång eller pincett avsedd för sensorisk lek

Gör så här

Eleven tränar, beroende på sin nivå, på att uppfatta mönster med två färger (fjärilen), tre färger (nyckelpigan), fyra färger (larven) eller fem färger (snigeln). Eleven tar ett bildkort och placerar kortet i gröna rutan under den stora insekten. Eleven lägger pompoms på den stora insekten enligt mönstret på kortet i rutan. På den stora insekten kan man limma mjölkburskorkar för att tydliggöra var eleven ska placera pompombollarna.

Man kan få in ytterligare finmotorik genom att flytta pompombollarna med en pincett eller tång. Genom att flytta föremål med en tång kan elevens handmotorik förberedas inför användning av sax, medan en trepunktpincett kan stärka elevens penngrepp.
