

Mata husdjuren med rätt antal

Använd tärningar eller
korten från äggkartongs-
uppgifterna

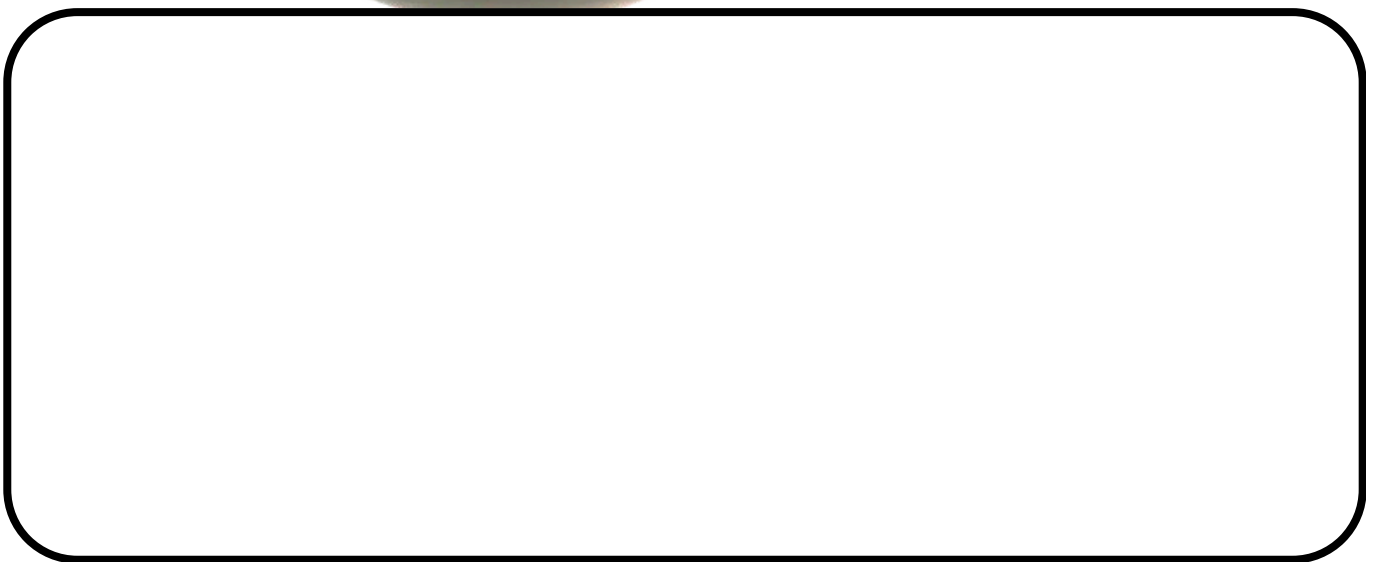

Husdjurens stödtecken

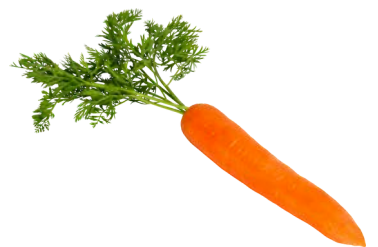

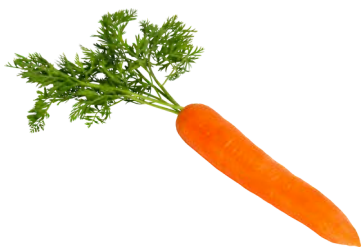

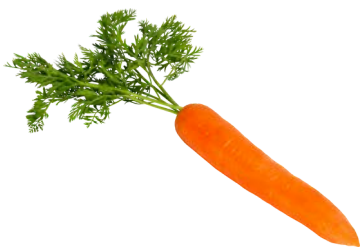

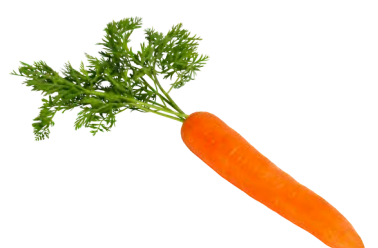

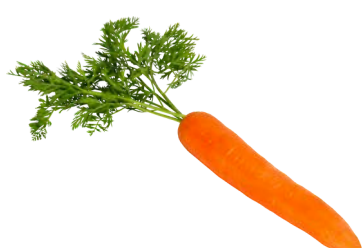

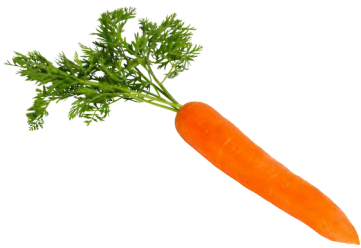

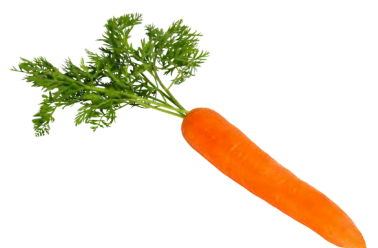

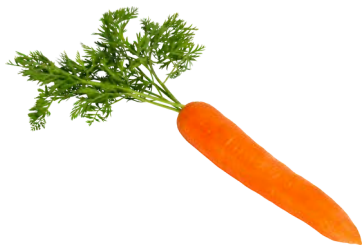

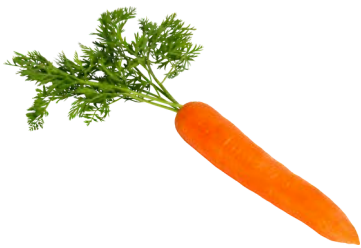

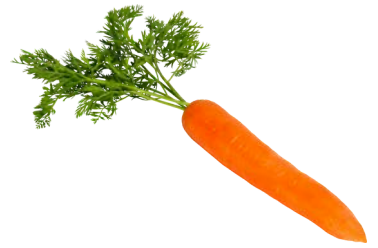

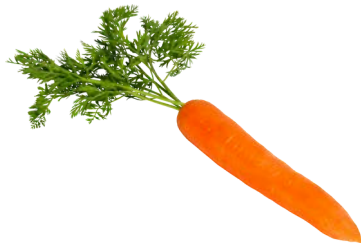

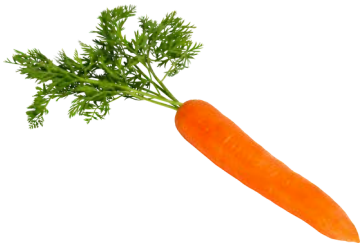

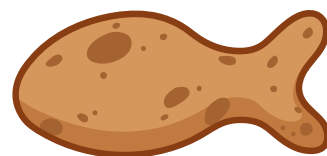

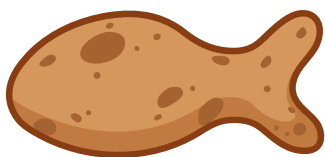

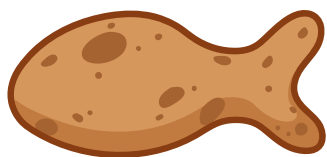

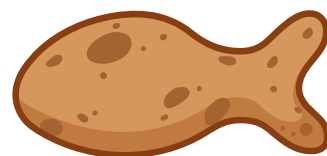

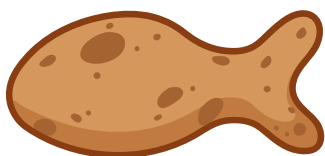

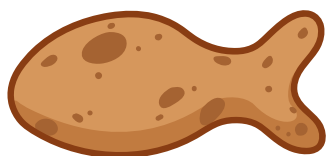

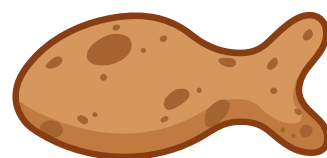

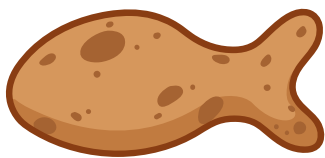

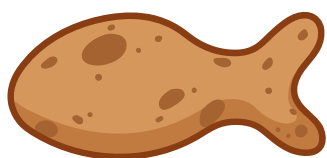

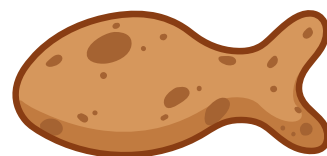

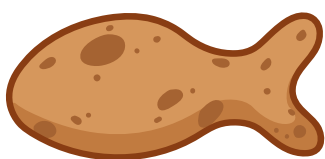

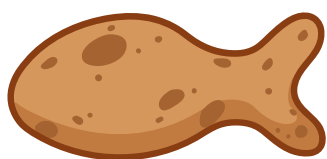

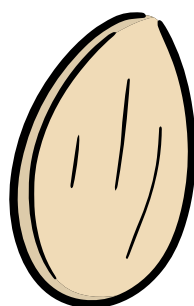

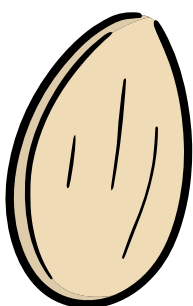

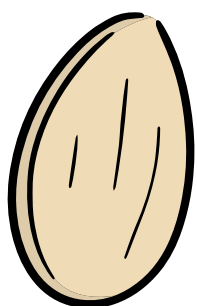

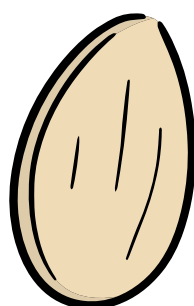

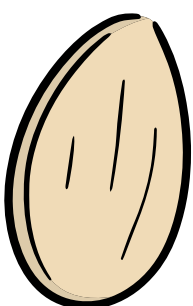

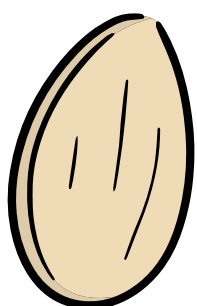

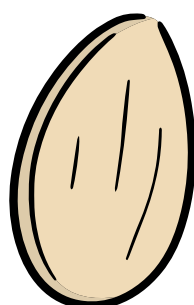

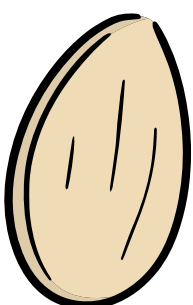

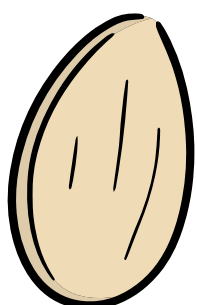

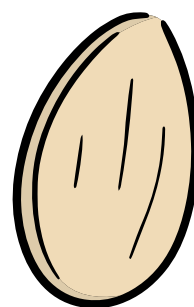

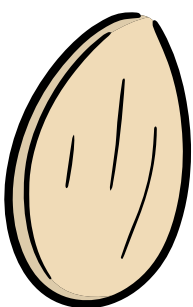

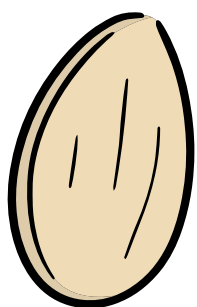

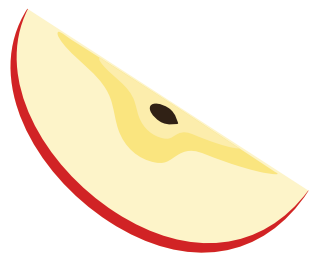

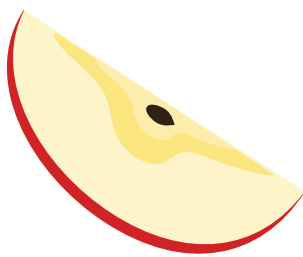

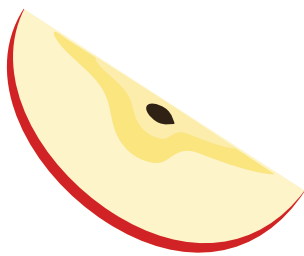

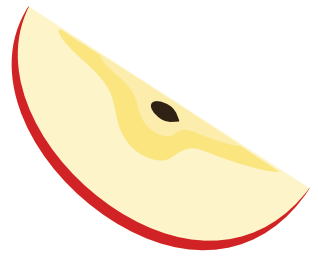

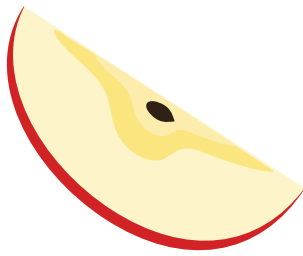

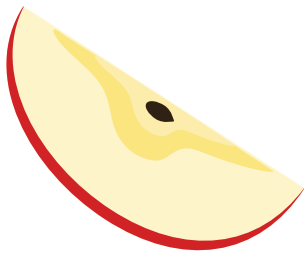

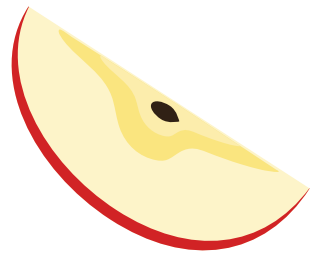

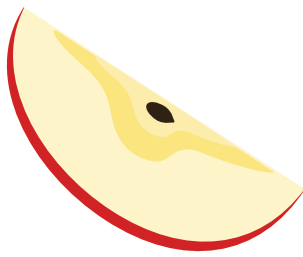

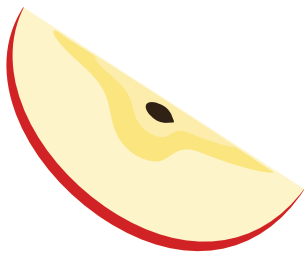

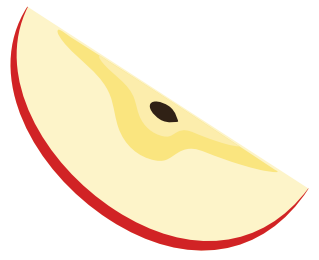

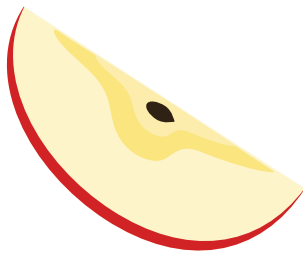

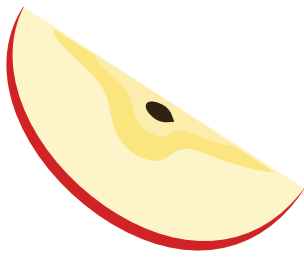

Mata husdjuren med rätt antal

Till läraren

Syfte

Eleven tränar taluppfattning.
Eleven tränar på att benämna olika husdjur.

Material

- laminerade arbetsblad
- bildkort på djurmat
- talkort från materialet "Talen 0-10 med tiokartong"
- tärningar

Gör så här

Välj ut de talkort (strecktal, fingertal, tiobrickor, talsymbol) eleven behöver träna på eller använd en tärning. Placera talkortet i rutan under djuret eller kasta tärningen och plocka rätt antal matbitar i skålen.

Om bildkorten med djurmat känns för små kan du skriva ut bara de sidorna i A3. Du kan också använda vanliga klossar i stället för bildkorten med djurmat.
