Talen 0-10 med tiokartong

Till läraren

Syfte

Eleven tränar taluppfattning.

Eleven lär sig talens olika representationsformer.

Material

- laminerade talkort
- äggkartong för 10 ägg
- klossar eller pompoms
- tång eller pincett avsedd för sensomotorisk lek

Gör så här

Placera ett talkort i äggkartongens lock. Eleven plockar rätt antal i äggkartongen. Etiketten på andra sidan kan limmas på locket av äggkartongen. Progressionen på talens olika representationsformer är strecktal, fingertal, tiobrickor och talens symboler. Talen 1-5 finns även representerade som handklappar, men man kan även använda olika rytminstrument.
