Alfabetet med bilder

Till läraren

Syfte

Eleven bekantar sig med alfabetet, bokstavsljud och bokstävernas form på ett mångsidigt sätt.

Beskrivning

Med det här materialet får eleven bekanta sig med bokstäverna på ett mångsidigt sätt. Här behöver eleven inte ha utvecklat finmotoriken för att kunna spåra utan kan träna bokstäverna på ett multisensoriskt sätt. Till exempel genom att plocka pärlor, trycka modellerna och stämpla.

Materialet finns i två varianter, ena varianten saknar bilder och andra har bilder.

Material

- laminerade arbetsblad
- modellera
- plockmaterial
- stämplar
- fingerfärg

Martha förbundets modellera recept

- 2 dl vetemjöl
- 1 dl salt
- 1 dl kokande vatten
- 1 ½ msk olja
- Färg: gurkmeja/kaffe/chlorella/tranbärspulver etc.

Blanda vetemjöl och salt i en skål. Blanda eventuell färg med kokande vatten och olja. Rör ner med de torra varorna till en smidig deg. Degen skall inte vara klibbig, men om den är det kan du tillsätta mera mjöl. Förvara degen i glasburk med lock, gärna i kylskåp. Degen håller åtminstone ett par veckor.

En del behöver mer för att få lika mycket.
